

Director's Report  
October 17, 2022

Board President Christie Cooper and I attended the Finger Lakes Library System Annual Meeting. It was a good meeting with a lot of information, about the direction the Finger Lakes Library System, will be looking to take in the upcoming year. There was also information being given to us concerning new state laws and the upcoming trustee education mandates. Trustee attendance is very important to these meetings. Only trustees can vote on the FLLS agenda. Again, thank you Board President Christie for making up the seventeen trustees needed for a quorum.

There are two girl scout troops using the basement for meetings. One troop meets on Monday night. Another troop meets on Thursday night. It's nice to have these troops using the building. When the meetings are over, the girl scouts check out books!!

At the time of this report, (Tuesday October 18):

- Saxton electric was on their way over. Looking to start electrical work on the shed, and electrical wiring for the AC/heat unit.
- The Mitsubishi AC/heat installer (Dave DiAlberto), is back from out of town. He will try to hook up with the Saxton crew.
- Friday 10/ 21 @ 9 AM, we have a meeting with "Cleaning By Stephanie", for estimates.
- Monday 10/24 @ 1 PM, we have a meeting with "Carpet House", for estimates.

We had our annual fire inspection. The library passed the fire inspection. It was noted that next year, the library fire extinguishers, will need to go over to Herrtronic. The extinguishers need to be tested and refilled.

Respectfully submitted,

Carla Piperno-Jones, director
